GWEN BUNTING

Dwer!
Well, feeble-
face we must
again. Keep smiling. It
lightens up the whole world.
Every day I look forward to
algebra just to see your
smiling face. See you in

ORGANIZATIONS

Student Council

Aside from the usual activities of the Student government, this year's council served as host to the Lower Shore Association of Student Councils' Contemporary Affairs Conference. Special guest speaker for "Footprints on the Moon" was Dr. Werner Von Braun.

Proctors

Whenever a gratuitious service is offered, it is often taken for granted, even though that service may be a necessity. The school proctors donate a valuable service that sometimes goes unnoticed and unrewarded. Space will not permit listing the many duties they perform and personal sacrifices they make each day. Working with these dedicated young people will always be one of my fondest memories.

We would like to take this opportunity to recognize all those who have not been thanked elsewhere in the **Seahawk** such as our photographers, the teachers who have been such good sports about being inconvenienced and the administration who have been most cooperative.

Our Compliments to the Class of 1970

We wish to extend our sincere congratulations for completing this vitally important step toward your future.

Whether your plans call for entering college or starting a career upon graduation from High School, the decisions you now make, may well be the most important of your entire lifetime.

As one of the leaders in Maryland's largest industries – the "Broiler-Fryer Industry" – we are taking the liberty of bringing to your attention, the fact that we too must plan for the future of our company and seek capable personnel, particularly those who can accept responsibility and are interested in a permanent future.

May we suggest that you contact one of the companies listed below and let them explain the many professions, trades and skills as they are employed in our industry. We offer a wide selection from which to choose – some require college training and others start with on-the-job training. We offer you a real opportunity right here on Delmarva. You may have read the book, "Acres of Diamonds", which relates many examples of persons who sought success in faraway places, only to learn years later the opportunity they were seeking was right at the place from which they had originally started. We suggest you look for Your "Pot of Gold" right here on the "Good Ole' Eastern Sho'," **FIRST** – before looking elsewhere.

Here is a list of categories and careers that can offer you an opportunity for a sound future in our industry.
